Together we will:

- Support our youth so they can achieve their goals;
- Support innovation; and
- Support a positive path forward that builds on growth & lessons learned.

The Hawaii Board of Education and Department of Education are gathering community feedback on student success to inform an updated and extended **DOE/BOE Strategic Plan**, to be presented in December 2016. Hawaii will be using the federal Every Student Succeeds Act to support the state's plan for high quality education.
