

Safety and Wellness Survey Data Report for School Year 2013-14

This report describes each school's progress in meeting the Hawaii State Department of Education Wellness Guidelines using data from the Safety and Wellness Survey (SAWS) school year (SY) 2013-14. The number of schools completing the SAWS in SY 2013-14 is 165 (65%) of 254 eligible schools.

The school Wellness Guidelines score is calculated by dividing the number of points achieved by the total points possible. In SY 2013-14, the school scores range between 31.8 - 100%. There are 46 schools receiving awards for "Excellence in Wellness" by meeting 90% or more of the Guidelines. Overall, Hawaii's schools are implementing an average of 79% of the Guidelines.

The SAWS uses the following scoring criteria: one (1) point for a guideline that is fully met or zero (0) for a guideline not met. In SY 2013-14, the number of points possible is 22 for elementary and 23 for secondary schools. Please see the next page for a summary of the Wellness Guidelines.

The SAWS is an online survey administered annually to principals at public (non-charter) schools to monitor compliance with the Wellness Guidelines and evaluate school health and safety programs. The Wellness Guidelines operationalize the Hawaii State Board of Education's Health, Wellness, and Safety Policy 1110-6. This report fulfills requirements of Public Law 111-296, Sec. 204 and the Healthy, Hunger-Free Kids Act of 2010. Some of the SAWS data may not be comparable across years due to modifications in the survey and scoring criteria.

More information about the Wellness Guidelines is online at <http://www.hawaiipublicschools.org/> and additional SAWS scores are included in the [Superintendent's Annual Report](#).
