

## PROGRAM REVIEW PROCESS

**PURPOSE:** Program Reviews are a necessary part of multi-faceted organizations that aim to ensure continuity in high standards of program and service delivery. Thus, HIDOE will annually engage in two program reviews, rotating through various major educational services, utilizing a comprehensive data review process. During the 2017-18 school year, HIDOE will conduct program reviews of Special Education Services and English Learner Services. These reviews will take approximately six months and culminate in a report with specific recommendations to improve program performance for our students.
