THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

38%

of students learning English are **on-track** to English language proficiency

How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

How many 8th graders read on grade level?

78% of 8th graders read **near, at, or above** grade level

How many students missed 15 or more days of school this year?

Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

Our Story

With a commitment to excellence, Aiea Intermediate School provides a safe, caring environment where students receive a quality education. The school, home, and community participate as partners to ensure that all students have an opportunity to maximize their own unique potential. Mutual respect and self-worth are fostered as essential qualities. Emphasis is placed on enabling each student to adapt to change, to recognize the value of lifelong learning, and to become a contributing member of a global society.

The vision of Aiea Intermediate School is striking in its simplicity. It is a place where children learn in an environment that is both pleasant and stimulating. Pleasant, because teachers and students find ways to build positive relationships, explore common interests, and honor the diversity that exists in this school. Stimulating, because no one is allowed to be satisfied with past successes or the status quo, and everyone is engaged in a process of continuous improvement. This quest to be both pleasant and stimulating continually raises the bar of our expectations and accomplishments, and guides our efforts to create a school where all students can be successful.

The school's innovative programs focus on achievement and success. Students are supported in their learning and the extraordinary steps AIS teachers take to ensure their success reflect our philosophy that "failure is not an option."

The Strategic Plan

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WaqQrL>

About Our School

Principal | Tom Kurashige
Grades | 7-8
808-305-9200
www.aieais.k12.hi.us

586

students enrolled

of students are English language learners

of students are eligible for Free or Reduced Lunch

of students receive Special Education services

of students receiving Special Education services are in general education classes most of the day
