THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

8%

of students learning English are **on-track** to English language proficiency

How are students' academic progress measured?

The Smarter Balanced test shows the relative progress of the average student on state assessments using a Median Growth Percentile (MGP). HSA-Alt & KĀ'EO tests show the percent of students making academic growth each year.

How many 8th graders read on grade level?

83% of 8th graders read **near, at, or above** grade level

How many students missed 15 or more days of school this year?

How do students feel about their school?

Measures percent of students reporting positive school climate as measured by the Tripod Student Perception Survey.

85% of students **feel positively** about their school

Our Story

With a commitment to excellence, Aiea Intermediate School provides a safe, caring environment where students receive a quality education. The school, home, and community participate as partners to ensure that all students have an opportunity to maximize their own unique potential. Mutual respect and self-worth are fostered as essential qualities. Emphasis is placed on enabling each student to adapt to change, to recognize the value of lifelong learning, and to become a contributing member of a global society.

The vision of Aiea Intermediate School is striking in its simplicity. It is a place where children learn in an environment that is both pleasant and stimulating. Pleasant, because teachers and students find ways to build positive relationships, explore common interests, and honor the diversity that exists in this school. Stimulating, because no one is allowed to be satisfied with past successes or the status quo, and everyone is engaged in a process of continuous improvement. This quest to be both pleasant and stimulating continually raises the bar of our expectations and successful.

The school's innovative programs focus on achievement and success. Students are supported in their learning and the extraordinary steps AIS teachers take to ensure their success reflect our philosophy that "failure is not an option."

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system.
