**THE STRIVE HI SCHOOL PERFORMANCE REPORT** is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

## How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

## How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

## How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

9%

of students learning English are **on-track** to English language proficiency

## How many students are prepared for transition?

## How many students missed 15 or more days of school this year?

## Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

## Our Story

Kaimuki High School (KHS) provides a student-centered learning environment aimed at preparing students for college, career, and life through project based learning (PBL). Two major features at KHS are Academies and Early College.

Academies are smaller learning communities where all students and teachers are grouped based on interest. Students within an academy see the same core (math, English, science, and social studies) teachers. Electives within the academy are based on the academy's focus. KHS has established five academies that include Freshman Academy, Hospitality Academy (Culinary Arts and Hotel Operations), Entertainment Academy (Polynesian Music, Digital Media, and Theater Arts), Bulldog Academy (CBI and SMI students), and STEM Academy (Science, Technology, Engineering and Mathematics).

Early College (EC) allows for high school students to earn college credits while still in high school. Our on-campus EC program, Kaimuki to College (K2C), provides all KHS students, particularly disadvantaged students, with equitable access to college courses. K2C students are provided the necessary supports to help ensure that they are successful in these EC courses. As KHS students mature, they have the option of taking EC courses off campus at Kapiolani Community College and the University of Hawaii at Manoa. KHS's EC program boasts over 900 credits earned during one school year.

## The Strategic Plan

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WqgQrL>
