THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

-- of students learning English are **on-track** to English language proficiency

How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

How many 3rd & 8th graders read on grade level?

How many students missed 15 or more days of school this year?

Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

Our Story

At Kona Pacific Public Charter School, we strive to educate the whole child, in order to cultivate in young people the skills, knowledge, and values they need to reach their highest potential. Our school is a socially inclusive learning environment that enables students to achieve high standards and engages the mind, fires the imagination, and nurtures compassion, inspiring and empowering students not only to successfully meet the future, but also to help shape it.

We offer a comprehensive educational program that weaves together three strands of learning: a holistic, hands-on, project based Waldorf education that promotes student achievement in language arts, math, science, visual arts, foreign languages, musical training and movement; an educational program that embraces the values of Hawaiian culture, with particular focus on environmental education and community sustainability through understanding and respect for the people, land and sea of Hawai'i, and a curriculum rich in the life-sustaining practices of farming and gardening that are a vital part of Hawai'i Island life.

Kona Pacific students are inspired to a high level of academic excellence, enthusiasm for learning, a healthy self-awareness, interest and concern for others, and respect for the natural world.

The Strategic Plan

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WqgQrL>

About Our School

Principal | Deann Canuteson
Grades | K-8
808-322-4900
www.kppcs.org

223

students enrolled

2%
of students are English language learners

57%
of students are eligible for Free or Reduced Lunch

--
of students receive Special Education services

--
of students receiving Special Education services are in general education classes most of the day

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.
