THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school’s performance on key indicators of student success. This report shows schools’ progress on the Department and Board of Education’s Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?
Measures the percent of students meeting the standard/who are proficient on state assessments.

<table>
<thead>
<tr>
<th>Subject</th>
<th>2015</th>
<th>2016</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Language Arts</td>
<td>41%</td>
<td>46%</td>
<td>35%</td>
</tr>
<tr>

How do you measure how well a school is doing? In our estimation, it’s more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

STRIVE HI is a collection of measures, only one, amongst the multitude of others that we have uniquely designed and tailored to tell the story of our children’s pathway to learning.

The Strategic Plan
The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at http://bit.ly/1WggQrL

Palolo Elementary
2106 10th Avenue, Honolulu, Hawaii | Oahu | Kaimuki-McKinley-Roosevelt Complex Area

Our Story
Palolo Elementary School is a lively place of learning where students are creative risk takers who apply their knowledge to solve real life problems. It is an exciting place where the pathways to learning are intentionally designed and purposeful. It is a place with pride that celebrates diversity and encourages the collective ideas of all, as we understand that voice and collaboration produce powerful outcomes. It is a place with a belief that failure is not an option as we develop resilience and perseverance which guide our students when they face adversity. Finally, it is a place with heart that honors not only what we learn and receive, but more importantly, what we teach and give to others.

In making Palolo Elementary School this special place, we depend on the collective efforts of all as we address our students’ challenges as well as uncover the unique gifts and talents of each child; integrate concepts and skills across all content areas (as the “real world” is holistic and not fragmented); and, create an environment that encourages curiosity, problem-solving, and innovation.

Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.
