

Safety and Wellness Survey (SAWS) Data Report for School Year 2016-17

The Safety and Wellness Survey (SAWS) measures statewide implementation of the Hawaii Department of Education (DOE) Wellness Guidelines. Survey results from the 2016-17 school year are provided in this report, in accordance with the USDA's final rule for Local School Wellness Policy Implementation under the Healthy, Hunger Free Kids Act of 2010, as well as the Hawaii Board of Education policy 103-1.

In the 2016-17 school year, 100% of 256 eligible schools completed the survey. The average score was 85% of Wellness Guidelines met. School scores ranged from 50% to 100% implementation of the Wellness Guidelines. The Hawaii Department of Health is awarding banners for "Excellence in Wellness" to 110 schools in recognition of meeting 90% or more of the guidelines.

Compliance with individual guidelines varied, with some guidelines being achieved by 100% of schools and others being achieved by only a minority of schools. All of the guidelines that relate to the school meals program (NS1, NS5, NH2, and NH3) are the responsibility of the DOE School Food Services Branch and were fully implemented by 100% of schools. On the other end of the spectrum, guideline NS2, which relates to the nutritional quality of foods and beverages sold or provided to students outside of the meals program (e.g., school parties, athletic concessions, and fundraisers) has consistently been the most difficult for schools to fulfill, and this year only 36% of schools met this guideline.

The SAWS is an online survey administered annually to principals at public (non-charter) schools and uses the following scoring criteria: one (1) point for a guideline that is fully met and zero (0) for a guideline not met. In school year 2016-17, there were 22 points possible for elementary and 23 for secondary schools; PA2 applies to secondary schools only. The overall score is calculated by dividing the number of points achieved by the total points possible.

Please see the attachments for a summary of the Wellness Guidelines, state average scores, and a comprehensive list of school SAWS scores for the 2016-17 school year.

Also note that the DOE revised its wellness policy in March 2017. As of June 30, 2017, schools should be fully implementing the updated Wellness Guidelines.
