

Safety and Wellness Survey (SAWS) Data Report for School Year 2017-18

The Safety and Wellness Survey (SAWS) measures school level implementation of the Hawaii Department of Education (DOE) Wellness Guidelines across the state. Survey results from the 2017-18 school year are provided in this report, in accordance with the USDA's final rule for local school wellness policy implementation under the Healthy, Hunger Free Kids Act of 2010, as well as the Hawaii Board of Education policy 103-1.

For the 2017-18 school year, 253 of 256 eligible schools completed the survey. The average score is 81% of Wellness Guidelines met. School scores range from 50% to 100% implementation of the Wellness Guidelines. The Hawaii Department of Health is awarding banners for "Excellence in Wellness" to 58 schools in recognition of meeting 90% or more of the guidelines.

Compliance with individual guidelines varies, with some guidelines being achieved by 100% of schools and others being achieved by only a minority of schools. The guidelines that relate to the school meals program (NG1 and NG5) are the responsibility of the DOE School Food Services Branch and are being fully implemented by 100% of schools. Guidelines which relate to the nutritional quality of foods and beverages sold or provided to students outside of the meals program (e.g., school parties, athletic concessions, and fundraisers) are less likely to be fulfilled and this year only 36% of schools met the guideline for foods (NG2) and 58% met the guideline for beverages (NG3).

The SAWS is an online survey administered annually to principals at public (non-charter) schools and uses the following scoring criteria: one (1) point for a guideline that is fully met and zero (0) for a guideline not met. In school year 2017-18, there were 34 total points possible. The overall score is calculated by dividing the number of points achieved by the total points possible.

Note that the DOE revised its wellness policy in March 2017. As of June 30, 2017, schools should be fully implementing the updated Wellness Guidelines.

More information about the SAWS and the DOE Wellness Guidelines may be found online at hawaiipublicschools.org.

Summary of Wellness Guidelines Scores for School Year 2017-18

WELLNESS GUIDELINE	AVERAGE SCORE	WELLNESS COMMITTEE (WC)
WC1	76%	The school has a designated wellness coordinator.
WC2	82%	The school has a wellness committee that includes members of the school community and/or members of the general public (e.g., representatives of community organizations, public agencies, or locally elected officials).
WC3	66%	The school wellness committee meets at least three times per school year.
WC4	68%	The wellness committee uses the School Health Index or other data sources (e.g. Youth Risk Behavior Survey) to identify priority areas and to monitor improvements in those areas annually.
WC5	95%	Priority areas for wellness are included in the school's Academic and/or Financial Plan.
WC6	46%	The school community is notified about the wellness policy and provided contact information for the wellness coordinator at the beginning of each school year.
WC7	88%	The school encourages students' families to support wellness at school and at home through a variety of culturally and linguistically appropriate formats (e.g. online, flier, presentations).
WC8	100%	The principal or the school wellness coordinator completes the Safety and Wellness Survey annually.
NUTRITIONAL GUIDELINES (NG)		
NG1	100%	All reimbursable meals and snacks meet the USDA nutrient standards.
NG2	36%	All foods sold or provided (e.g., a la carte sales, fundraisers, student stores, vending machines, and parties) on school campus during the school day meet the USDA meal pattern requirements or Smart Snacks standards.
NG3	58%	All beverages sold or provided (e.g., a la carte sales, fundraisers, student stores, vending machines, and parties) on school campus during the school day meet the following criteria during the school day: <ul style="list-style-type: none"> • No caffeine, no artificial colors, and no artificial flavors • Maximum 8 oz. serving, except water which has no portion size limit <ul style="list-style-type: none"> ○ Water – Plain (with or without carbonation) ○ Milk – Unflavored 1% of fat free; flavored fat free milk; milk alternatives as permitted by the National School Lunch/Breakfast Program; with ≤ 22 grams of sugar per 8 oz. serving ○ 100% Fruit or vegetable juice with no added sweeteners ○ 100% Fruit or vegetable juice diluted with water and no added sweeteners
NG4	77%	Fundraising activities that promote physical activity, non-food items, or healthy foods based on Smart Snacks standards are encouraged.
NG5	100%	Meals and snacks include fresh and locally grown fruits and vegetables when possible.
NG6	98%	Students are allowed to have at least 20 minutes to eat their lunch after being served.
NG7	100%	Students have access to free drinking water during meal times and throughout the school day at multiple locations on campus.
NG8	55%	Food is not used as a reward or punishment for students.
HEALTH EDUCATION AND NUTRITION PROMOTION (HE)		
HE1	96%	Instructional content of health education classes includes a focus on knowledge and skills that support healthy eating and is aligned with the Hawaii DOE Standards for health education.
HE2	79%	Health education is provided to students in elementary grades at least 45 minutes per week and secondary grades at least 200 minutes per week as measured by time spent in a course, integrated into multiple content areas, or through interdisciplinary units.
HE3	87%	Nutrition education includes culturally relevant activities that are 'aina-based and hands on, such as food preparation, taste-testing, farm visits, and school gardens.
HE4	84%	All school-based marketing of foods and beverages must meet the Nutrition Guidelines. This includes, but is not limited to, school publications, the exterior of vending machines, posters, banners, in-school television, and scoreboards.
PHYSICAL EDUCATION (PE)		
PE1	99%	Instructional content of physical education classes is aligned with the Hawaii DOE Standards for physical education.
PE2	81%	Physical education is provided to students in elementary grades at least 45 minutes per week and secondary grades at least 200 minutes per week.
PE3	95%	At least 50% of physical education class time is dedicated to moderate to vigorous physical activity.
PE4	76%	Physical education classes are taught by State-certified physical education instructors.
PE5	97%	Physical education classes have a student/teacher ratio similar to other classes.
PE6	73%	Physical education in grades 5, 7, and 9 includes a health-related student fitness assessment (e.g. FitnessGram).

PHYSICAL ACTIVITY (PA)

PA1	95%	Students are provided at least 20 minutes a day of recess that include opportunities to engage in moderate to vigorous physical activity.
PA2	81%	Students are provided with physical activity breaks at least every 60 minutes.
PA3	74%	The school does not use or withhold physical activity (e.g. recess or PE) as a negative consequence.
PA4	69%	The school supports active transport by encouraging students and staff to walk and/or bike to school if reasonably safe to do so.
PA5	80%	The school supplies bike racks for students and staff.
PA6	78%	The school staff, students, families, and community members have access to school grounds and facilities to be physically active during non-instructional time (e.g. before and after school, on weekends, and holidays).

PROFESSIONAL DEVELOPMENT (PD)

PD1	74%	The school staff receive annual professional development on the wellness guidelines.
PD2	91%	The school staff are encouraged to be role models for wellness (e.g. healthy eating, physical activity, tobacco-free, and stress management).
