Peace

Peace means working together
as a group
It means to help each other
with kindness
It doesn't matter
what you look like.

Peace

How can I live in peace?
I think I know what peace is.
It is... no one has a bad spirit
It is even being safe.
No one will hurt anyone.
That is what peace means.

Keep Your Head Up

We're living in darkness
Searching for our guide
But the lights are dimming out,
We're lost in our pride
Hokule'a, however;
Is different from others
A tranquil, graceful, independent mother
But yet we stick up our heads;
Ignoring the land's tears
We dye the grass red
And I've asked over the years
Why do we hate our world?
Pollute our world?
Abuse our world?
Mother Nature,
I know your time was rough.
But keep going, gotta keep your head up

Peace

Peace is happiness,
Like a clear blue sky reflecting
the clean lake of a crystal morning,
Peace is love,
No war, no sadness,
Peace is being in balance,
With love and hate,
Peace is to be able to give and to take,
To have unity,
In all countries and communities.
Peace is peace for all.
