GOAL 3: Successful Systems of Support

Repair & Maintenance Backlog

The Department launched the Future Schools Now initiative in November 2018, which includes the roll out of an online database of Capital Improvements Program projects — the CIP Project Tracker. The searchable database provides information on design and construction contract amounts, the status of projects, and awarded vendors. The CIP Project Tracker is being beta tested and a public dashboard will be released in SY 2019-2020. The re-accounting of projects to fit this database requires a reset on the R&M backlog. A new baseline and target will be set in 2019. Visit http://bit.ly/HIDO-FSN to learn more about Future Schools Now.

Family Engagement

How is it calculated?
The School Quality Survey is made up of four dimensions around Safety, Well-Being, Satisfaction, and Involvement/Engagement. Parents respond to each statement in these dimensions with their agreement or disagreement on a 5-point Likert scale. A parent’s overall favorability on the Involvement/Engagement dimension is determined if the mean response for these ten statements is greater than or equal to 3.5 points (out of a possible 5 points).
