

Title IX Essential Lessons Packs

The Title IX Essential Lessons Packs are designed to help schools prevent sexual and gender-based harassment and sexual assault in the following ways:

- educating elementary, middle, and high school students about the fundamental concepts related to sexual and/or gender-based harassment and sexual assault;
- building students' skills to recognize, intervene and report harassment; and
- establishing a culture of respect in the school community.

The lessons are designed to complement existing health education efforts in districts and schools and serve as a critical component of their efforts to comply with Title IX, the federal law that prohibits discrimination based on sex in educational programs that receive federal funds.

Developed by ETR's K12T9 Initiative, this evidence-informed curriculum is based on five determinants of student behavior, provides trauma-informed guidance for facilitators.

The general description of the curriculum was adapted from information provided on the publisher's website.
