<ul style="list-style-type: none">• The State Performance Plan (SPP)/Annual Performance Report (APR) is developed in six year intervals.• It is a single document that measures the State's efforts in meeting the Individuals with Disabilities Education Improvement Act of 2004 (IDEA).	<ul style="list-style-type: none">• SPP/APR FFY 2020 on <u><i>HIDOE's website</i></u>• <u><i>FFY 2020 Part B Indicator Measurement Table</i></u> for submission beginning in February 2022

Requirements for Baselines & Targets

Baselines

State can reset the baselines if:

- Calculation methodology changed.
- Data measurement method or process is revised.

Targets

Targets Must:

- Be rigorous, yet achievable.
- Show improvement over baseline.
- Be set with the advice of stakeholders.
- Be rooted in, and build on, past experience when possible.

Setting New Targets Process

Review the longitudinal data and consider:

- What was the baseline last indicated?
 - Review the data since baseline.
- What were the targets?
- Did the state meet the targets?
- Has there been progress or slippage over time?
- What are the data now in relation to target and to baseline?
- Are there any initiatives that may impact the outcomes for this indicator?

Things to Consider

Are the proposed targets rigorous and achievable?

Provide any suggestions that may help improve outcomes for this indicator.

In what way(s) might teachers, administrators, parents, or other stakeholders assist the HIDOE to improve understanding of dispute resolution options and use of effective dispute resolution methods to solve disagreements?

What is Indicator 15?

Percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements.

(20 U.S.C. 1416(a)(3)(B))

Data Source

- States are required to track due process hearing requests and outcomes of each.
- Data is submitted to the Office of Special Education Programs (OSEP) annually in November.

How Does HIDOE Measure Indicator 15?

[Numerator 3.1(a)] Written settlement agreements reached through resolution meetings	÷	[Denominator 3.1] Number of resolution sessions (meetings) held	X 100	= Percent of hearing requests that went to resolution sessions that were resolved through resolution session settlement agreements
---	---	--	-------	--

- **Measurement:** Percent = (3.1(a) divided by 3.1) times 100
- **Data Included:** For example, using SY 2020-21 data:
 - 3: Total number of due process complaints filed = 54
 - 3.1: Number of resolution sessions (meetings) held = 37
 - 3.1(a): Written settlement agreements reached through resolution sessions = 11

$$11 \div 37 \times 100 = 29.73\%$$
