

SUMMER 2020

LEARNING OPPORTUNITIES & RESOURCES

Teachers, principals, and school support staff are doing heroic work to offer stability for students and families during the unprecedented COVID-19 pandemic by providing meals, home learning resources, and online instruction. For Summer 2020 the focus will be providing students opportunities to redo or retake courses, accelerate or advance in coursework, and access a technology-rich learning environment with physical and virtual components.

Statewide Credit Acceleration

Available to: All grades.

This program provides students the opportunity to take courses for acceleration or course replacement via a self-paced, adaptive online program customized to the learner. The program uses core technologies that enhance teaching and learning to tailor course content to each student's learning needs.

Time period: Through June 2021.

Statewide Credit Recovery

Available to: Grades 6-12.

This program provides students the opportunity to redo or retake required units or credits via a self-paced, adaptive online program using video-based lessons customized for the learner. This opportunity is being offered for *free* to students currently in grades 6-12 (expanded from juniors and seniors initially).

Thirty-eight schools plan to offer this program. Schools have until June 15 to register students. The Department will provide up to 6,000 students the opportunity to take up to six courses each.

Time period: June 1 to July 19.

Families should reach out to their school to inquire about credit recovery offerings.

Official Summer School

Available to: All grades.

Summer school will be delivered virtually for the health and safety of students and staff. The Department will offer 19 official summer school sites including E-School, and anticipates serving an estimated 4,000 students statewide.

The list of sites can be viewed at <http://bit.ly/HIDOESummer2020>

Time period: June 2 to July 17.

E-School

Available to: Grades 9-12.

The E-School program offers a variety of rigorous courses in language arts, math, social studies, health, and fine arts. Students are guided through their courses by state-certified teachers. Teachers evaluate student work and provide constructive feedback. Students interact and collaborate with each other through blogs, discussion forums, virtual classrooms, and other communication tools offered in the course management system.

E-School has grown to serve 1,195 students enrolled in 14 different course offerings. Registration ended April 30.

Time period: June 4 to July 17.

Information about the HODOE E-School program can be found at <http://eschool.hidoe.us/>.

School-Based Opportunities

Available to: All grades.

This programs provides learning opportunities for remediation, intervention and enrichment. Models will vary by school to best address student needs. Potential activities include extended learning opportunities, summer bridge and transition programs, problem-based learning, experiential-based learning, and mobile micro-learning labs.

The Department will facilitate equitable access to learning opportunities to provide students with a technology-rich learning environment during the summer program. This includes possibilities like community-based learning hubs and mobile learning hubs for students with unstable housing.

Time period: June 1 to July 19.

Check school websites and emails, and the HODOE website for opportunities.

Continuity of Learning Websites

Available to: All grades.

The Department created websites to support the continuity of learning during the COVID-19 closures. The website for teachers and administrators provides instructional strategies and content-area resources for distance learning. The website for students and parents offers enrichment activities such as at-home learning choice boards.
