

Academic Plan for School Year 2021-22

School: Hickam

Developing a collaborative Academic Plan framed by the HIDOE Learning Organization is the foundation for a forward focused Academic Plan. An effective Academic Plan utilizes existing school resources to improve and/or introduce new ideas that accelerate the school community’s knowledge about ending achievement gaps and providing equitable services for all students. A forward focused Academic Plan clearly describes a school’s Theory of Action that incorporates the following: 1) analyzing data to explain achievement gaps; 2) incorporating measurable outcomes that inform the closing of the achievement gap; and 3) applying contextual and community measurements and assessments.

Starting from a comprehensive needs assessment, schools study organizational, instructional, and student support systems to design measurable outcomes. The measurable outcomes are implemented and improved through Plan, Do, Check, Act (PDCA) cycles and systemized by leading indicators.

HIDOE Learning Organization

Pipeline of Emerging Ideas: To prepare for emerging trends, advancements and changes that impact education, ideas are tried and vetted by our schools and teams, some will advance to support the core.

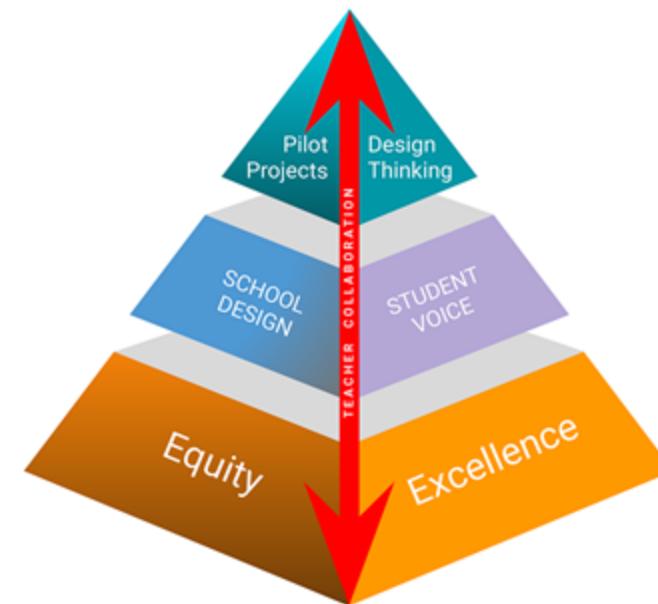

- The Pipeline of Emerging Ideas is linked to the HIDOE 2020-30 Strategic Plan (page 5).

Innovation in Support of the Core: New strategies and systems for delivering teaching and learning. High-Impact strategies: School Design, Teacher Collaboration, Student Voice.

- The Academic Plan incorporates School Design and Student Voice for **Innovation in Support of the Core** (pages 3-4).

Teaching & Learning Core: Focus: equity and excellence in core curriculum and supports.

- The Academic Plan is structured by the HIDOE Learning Organization, and it is founded on the **Teaching & Learning Core** (page 2).

Principal (print): Patrick Wetzel	
Principal's signature: Signature on file at school	Date: 4/30/2021

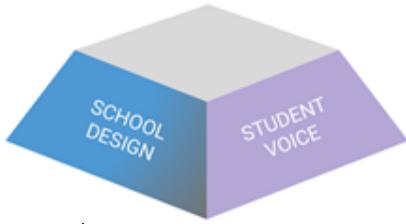

Complex Area Superintendent (print): John Erickson	
Complex Area Superintendent's signature: 	Date: 4/30/2021

Teaching & Learning Core: Equity and Excellence

In order to address equity, list the targeted subgroup(s) and their identified needs. Specifying [enabling activities](#) in the academic plan should address identified subgroup(s) and their needs.

Achievement Gap	Theory of Action	Enabling Activity										
<p><i>Identify and describe an achievement gap including but not limited to Special Education or English Learners or any other sub group. The description must be gathered from a comprehensive needs assessment (CNA), such as Title I CNA, WASC Self Study, International Baccalaureate, and may include additional local measurements.</i></p> <p>Based on Hickam’s CNA report, achievement data shows that high needs students (IDEA, EL, and free & reduced) struggle compared to our non-high needs students on standardized tests. SBA proficiency rates show that 30% of IDEA students in Language Arts and 31.43% in Mathematics met proficiency standards on their SBA assessment. As a result, Hickam Elementary School (HES) has a 50% achievement gap in ELA and a 36% achievement gap in Math.</p> <p>Research has indicated one of the best high yield strategies for reducing the achievement gap is for special education students to be in the least restrictive model to the greatest extent possible. For SY 2021-22, HES will be incorporating an Inclusion Model in three different grade levels (K,1, 4) in order to close the achievement gap. Teachers will learn and use strategies to help scaffold lessons and differentiate instruction leading to improved student learner outcomes. We will be working in conjunction with the Stetson Group and district personnel to support our efforts.</p> <p>In addition, teachers will be using learning team time to review formative assessment data, conduct recursive teaching, and examine to see if student learner outcomes have improved.</p>	<p><i>What is your Theory of Action (if-then) to improve the achievement gap?</i></p> <table border="1" data-bbox="908 500 1671 1437"> <thead> <tr> <th data-bbox="908 500 1287 565">If</th> <th data-bbox="1287 500 1671 565">Then</th> </tr> </thead> <tbody> <tr> <td data-bbox="908 565 1287 808">Teachers receive Professional Development in the inclusion model</td> <td data-bbox="1287 565 1671 808">Teachers will have the knowledge better support the vast learning needs of our students resulting in improved student learner outcomes.</td> </tr> <tr> <td data-bbox="908 808 1287 1089">Teachers participate in grade level and department Learning Team Times (LTT)</td> <td data-bbox="1287 808 1671 1089">Teachers will develop a habit of examining formative assessment data, reteaching discrete skills for better understanding, and reassessing for improved student learner outcomes.</td> </tr> <tr> <td data-bbox="908 1089 1287 1333">Students have access to a well rounded, standards-based curriculum that focuses on the development of the whole child.</td> <td data-bbox="1287 1089 1671 1333">Students will be engaged in the learning process, meet grade level proficiency, develop critical thinking and computer literacy skills to be successful students</td> </tr> <tr> <td data-bbox="908 1333 1287 1437">Hickam continues to provide a well-appropriate HMTSS</td> <td data-bbox="1287 1333 1671 1437">Students will feel supported academically and</td> </tr> </tbody> </table>	If	Then	Teachers receive Professional Development in the inclusion model	Teachers will have the knowledge better support the vast learning needs of our students resulting in improved student learner outcomes.	Teachers participate in grade level and department Learning Team Times (LTT)	Teachers will develop a habit of examining formative assessment data, reteaching discrete skills for better understanding, and reassessing for improved student learner outcomes.	Students have access to a well rounded, standards-based curriculum that focuses on the development of the whole child.	Students will be engaged in the learning process, meet grade level proficiency, develop critical thinking and computer literacy skills to be successful students	Hickam continues to provide a well-appropriate HMTSS	Students will feel supported academically and	<p><i>What are your Enabling Activities to improve the achievement gap?</i></p> <ul style="list-style-type: none"> ● All teachers will collaborate during Learning Team Times with a focus on improving the achievement gap: <ul style="list-style-type: none"> ○ Common grade level assessment calendars, pacing guides and curriculum maps ○ Weekly grade level collaboration meetings, set with agenda and minutes ○ Assessment planning, discussion and analysis ● All students will be screened three times a year using a universal screener and tiered appropriately using i-Ready usage and passed lessons monitoring <ul style="list-style-type: none"> ○ Intervention blocks to address individual and group learner needs ○ Teachers will focus on one student using i-Ready data to measure student progress and address the achievement gap. ● Strengthening evidence-based resources/strategies, such as AVID, Technology, LTT, etc., available within our school. ● All teachers will receive PD in the SAMR model with a focus on technology integration to help the achievement gap in ELA instruction. ● All students will receive school-wide classroom SEL lessons by the School Counselor in targeted areas in accordance with LIM and needs of the classroom as a proactive approach. <ul style="list-style-type: none"> ○ Support social and emotional needs to self-regulate and/or resolve conflict. ○ Build relationships with the counselor
If	Then											
Teachers receive Professional Development in the inclusion model	Teachers will have the knowledge better support the vast learning needs of our students resulting in improved student learner outcomes.											
Teachers participate in grade level and department Learning Team Times (LTT)	Teachers will develop a habit of examining formative assessment data, reteaching discrete skills for better understanding, and reassessing for improved student learner outcomes.											
Students have access to a well rounded, standards-based curriculum that focuses on the development of the whole child.	Students will be engaged in the learning process, meet grade level proficiency, develop critical thinking and computer literacy skills to be successful students											
Hickam continues to provide a well-appropriate HMTSS	Students will feel supported academically and											

Lastly students will be utilizing i-Ready to either reinforce the skills learned in class or reduce any gaps in learning because the program provides instruction at their level.

continuum of services

socio-emotionally allowing them to develop the self-esteem and confidence needed to thrive at Hickam.

Innovation in Support of the Core: School Design and Student Voice

Describe here your complex/school contexts for School Design and Student Voice.

To prepare students for life beyond schooling, we will directly develop the whole-person and prepare them to be life-ready learners and leaders (part of college and career readiness).

Effective leaders have social and emotional intelligence. Social and emotional learning is the process through which children and adults acquire and effectively apply the knowledge, attitudes and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

Describe here your current and continuing initiatives that will further advance your SY 2021-22 School Design and Student Voice.

Culture of Empowerment and Leadership Focus on social, emotional learning, leadership culture and personal empowerment (School Design Initiatives)

Student Learning Products and Voice: Nurture the Whole Child means preparing students by ensuring they are physically, social-emotionally, and mentally healthy, safe, engaged, supported and challenged. We set standards for comprehensive, sustainable school improvement and provide skills for long-term success, which includes strong, Aloha-based transition support and interest-based activities.

Core Values and Mindset Narrative: Culture of Empowerment and Leadership involves school-wide language, direct and indirect instruction on leadership dispositions and mindsets. We intentionally create a culture of trust and engagement. We empower students to lead their own lives, and make a difference with others, provide students’ tools to better achieve goals and develop student voice.

Curriculum and Instruction and Values: World Class Education focuses on science, technology, engineering and math, including individual lines of inquiry, diverse collaboration, media literacy, critical literacy, and global engagement. As part of new frameworks, we also include problem-solving project-based learning, civic activities and digital literacy. Our students go to and come from many countries, and they should be competitive, able to lead anywhere in the world, and solve tomorrow’s greatest problems.

Infrastructure: Future Focused/Inspired builds towards tomorrow’s learning world, not the past one. Learning is focused on using high-quality instruction with disruptive innovation utilizing embedded

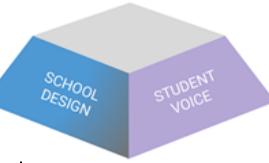

technology into pedagogy. We will use an empathetic approach (what do students need, collective enterprise) in design thinking, ensure life-wide learning, and engage students in decision making. We will grow our learning practice using effective teacher collaboration, reflective practices, and sustained professional development.

Describe here your current and continuing initiatives that will further advance your SY 2021-22 School Design and Student Voice.

Hickam Elementary School stakeholders, including our administration, faculty and staff, military partnerships, and families, will provide opportunities for our students to share their voices and leadership.

SY 2021-22 Measurable Outcomes	SY 2022-23 Measurable Outcomes	SY 2023-24 Measurable Outcomes
<p><i>What are your Measurable Outcomes around School Design and Student Voice? What are you designing?</i></p> <p>A: Instruction</p> <ul style="list-style-type: none"> By the end of SY 2021-22, 100% of students will be meeting their Typical Growth on i-Ready in Reading By the end of SY 2021-22, 100% of students will be meeting their Typical Growth on i-Ready in Math. By the end of SY 2021-22, 80% of grades 3-6 students will be proficient on the ELA Smarter Balanced Assessment By the end of SY 2021-22, 74% of grades 3-6 students will be proficient on the Math Smarter Balanced Assessment By the end of SY 2021-22, 83% of fifth grade students will be proficient on the Science Smarter Balanced Assessment. By the end of SY 2021-22, 45% of high-needs students will be proficient on the ELA Smarter Balanced Assessment. Pipeline of Emerging Ideas: Pilot Projects and Design Thinking

When HIDOE references innovation and emerging ideas, the Department is responding to important mindsets that embrace new ideas, replace dated practices, and strive for better solutions. Therefore, the Learning Organization must be prepared to uphold innovative learning environments that elevate a school’s collective work, expand capacity to improve, and continuously advance student learning.

The HIDOE 2030 Promise Plan will be drafted to help school communities open conversations about the *Pipeline of Emerging Ideas*.

School Ideas for Innovation and Pilot Projects	Conditions for Success
<p><i>Please describe your school’s ideas around innovation and pilot projects.</i></p> <p>Hickam Elementary would like to provide students a thought-provoking digital environment in which global citizenship, collaboration, and innovation organically occurs.</p> <ul style="list-style-type: none"> - Robotic/AR/VR center in all classrooms - A Makers’ Ed area for all students to utilize tools and machines to code, create, and tackle real-world problems that would benefit the community. - Flexible seating in all classrooms for students to move from center to center - Teachers will pursue professional interests by creating and actively participating in local and global learning networks 	<p><i>Please describe your conditions for Success:</i></p> <p>In order for us to achieve these innovation goals, we will need</p> <ul style="list-style-type: none"> ● Funds for current technologies and supplies ● Inspiration for teachers on how to create these moments for students ● Training for teachers on how to utilize Makers’ Ed tools and machines ● Teacher networking
