2023-2024 Academic Plan

Pohakea Elementary
91-750 Fort Weaver Rd
Ewa Beach, HI 96706

Phone: (808)307-2000

Submitted by: Principal Corey Barton

Date:

4/13/2023

Approved by: Complex Area Superintendent Sean Tajima

Date:

APR 14 2023
Developing a collaborative Academic Plan framed by the HIDOE Learning Organization is the foundation for a forward-focused Academic Plan. An effective Academic Plan utilizes existing school resources to improve and/or introduce new ideas that accelerate the school community’s knowledge about ending achievement gaps and providing equitable services for all students. A forward-focused Academic Plan clearly describes a school’s Theory of Action that incorporates the following: 1) analyzing data to explain achievement gaps; 2) incorporating measurable outcomes that inform the closing of the achievement gap; and 3) applying contextual and community measurements and assessments.

Starting from a comprehensive needs assessment, schools study organizational, instructional, and student support systems to design measurable outcomes. The measurable outcomes are implemented and improved through Plan, Do, Check, Act (PDCA) cycles and systemized by leading indicators.

**HIDOE Learning Organization**

**Pipeline of Emerging Ideas:** To prepare for emerging trends, advancements and changes that impact education, ideas are tried and vetted by our schools and teams, some will advance to support the core.
- The Pipeline of Emerging Ideas is linked to the HIDOE 2020-30 Strategic Plan (page 5).

- The Academic Plan incorporates School Design and Student Voice for **Innovation in Support of the Core** (pages 3-4).

**Teaching & Learning Core:** Focus: equity and excellence in core curriculum and supports.
- The Academic Plan is structured by the HIDOE Learning Organization, and it is founded on the **Teaching & Learning Core** (page 2).
Teaching & Learning Core: Equity and Excellence

In order to address equity, list the targeted subgroup(s) and their identified needs. Specifying enabling activities in the academic plan should address identified subgroup(s) and their needs.

<table>
<thead>
<tr>
<th>Achievement Gap</th>
<th>Theory of Action</th>
<th>Enabling Activity</th>
</tr>
</thead>
<tbody>
<tr>
<td>Identify and describe an achievement gap including but not limited to Special Education or English Learners or any other subgroup. The description must be gathered from a comprehensive needs assessment (CNA), such as Title I CNA, WASC Self Study, International Baccalaureate, and may include additional local measurements. The challenge at Pohakea Elementary School is meeting the literacy and numeracy needs of our underserved and disadvantaged learners. In ELA, the non-high needs (NHN) proficiency in school year 21-22 was 73% which was an increase from 55%. The high-needs (HN) proficiency was 39% (SY 21-22) increased 1% from 38% (SY 20-21). The ELA achievement gap increased from 17 points to 35 points in SY 21-22 because the NHN increased in proficiency while the HN remained about the same. In mathematics non-high needs proficiency 59% (21-22) increased 17% from 42% (SY 20-21). The high-needs proficiency of 35% (21-22) increased 9% from 24% (SY 20-21). The gap between the NHN and HN is 26 points compared to the previous year of 17 points. Our EL student population in school year 21-22 was 50 students comprising 11% of student population. In school year 21-22 EL students who were on track in meeting their growth to target at 62% which increased from 35% from the previous year. In SY 21-22, 22% of EL students met proficiency in ELA. 21% of EL students met proficiency in mathematics. Additionally, in 2021-2022 our IDEA students' ELA proficiency was 18% (increase from 11%). In Math 18% (increase from 11%). Low SES population met proficiency at 40% in ELA and 32% in mathematics. These data points indicate a clear need for literacy and numeracy support for our high-need populations.</td>
<td>What is your Theory of Action (if-then) to improve the achievement gap? Questions Raised by the Data: 1. How is our implementation of school Tier 1 Instruction initiatives impacting student growth and achievement? 2. How does our school culture instill/grain equity and safety so all students experience success in their learning? Pohakea focuses on Social Emotional Learning, Effective Instruction, and Literacy. If we focus on these pillars within all tiers of instruction, then teachers will be able to remove students' learning barriers resulting in student growth. Growth will occur academically, emotionally, and socially. Pohakea is implementing the use of multiple points of quantitative and qualitative data to drive decision-making and action through our continuous school improvement process. We have structured the time for data analysis, teacher collaboration, and professional development.</td>
<td>What are your Enabling Activities to improve the achievement gap? • Effective Tier 1 Instruction in all classrooms o Foundational Literacy/Numeracy o Co-teaching/Inclusion o Clarify (Teacher Clarity→ Student Clarity) Learning Intentions &amp; Success Criteria o Standard-Driven, not program-driven • Social Emotional Learning (SEI) Implementation • Professional Development and implementation o Yuureka Math o Integrated Units (Project-Based Learning) o Thinking Maps Write from the Beginning and Beyond o Universal Design for Learning (UDL) o STemscones • Schoolwide RTI system o Intervention Teacher Position o Supports through Instructional Strategies o Pre-Referal Intervention Student Support Team (PRISST)/Chronic Absenteeism Team (CAT) • Family Engagement o Family Events/Surveys o Communication Systems</td>
</tr>

Innovation in Support of the Core: School Design and Student Voice

Our vision, Engage, Empower, Enlighten ensures Pohakea’s success through the collective wisdom of collaborative voices and actions to continuously build our culture of care and with purpose.

Pohakea Elementary is designed around three pillars of focus, Social Emotional Learning, Effective Instruction, and Literacy (Reading and Math). We have intentionally sought out teacher and family input through our faculty meetings, surveys, and conversations. Pohakea’s School Design and Student Voice is implemented through various elements of teaching and learning:

We, at Pohakea Elementary School, continue to engage with various school community components focused on student learning and growth. We believe that success has much to do with one’s good character, growth mindset, and dispositions. We believe that everyone must have the opportunity to be happy and to become strong community contributors and to be so, one must have a strong academic foundation.

Our approach in addressing the whole child, is to continuously explore and seek appropriate ways to 1) address the social-emotional learning of our students and 2) build a solid academic foundation by utilizing research-based programs and ensure an effective teacher in every classroom.

As a learning organization; the following systems and programs are in place to address various components of teaching and learning:

- Students-First Paradigm allows for the emphasis of Whole-Child Development Including:
  - Social Emotional Learning
    - Developing appropriate social skills and creating healthy social relationships.
    - Learning effective skills to identify and manage different feelings in different situations.
  - Academic Rigor/Effective Instruction
    - Developing equitable academic coursework that challenges all students to become assessment capable learners.
    - Delivering effective instruction to meet the needs of all students
    - Differentiated learning to allow students multiple modalities to demonstrate mastery
    - Accelerated Programs to address loss of learning beyond the school day.
  - Student Advocacy (Student Voice)
    - Empowering students to have a choice in the way they learn to develop healthy curiosity about the world around them
    - Empowering student choice in education to implement a student-centered curriculum based on self-assessment and inquiry
    - Developing student groups (Student Leadership Council [SLC], Gifted and Talented Program [GT], School Community Council [SCC]) to develop and strengthen student voice
    - Embarking school values to enrich their learning environment
    - Instilling confidence in undertaking thoughtful risks associated with learning
  - Impact Teams (Data Analysis) school wide structure empowers us to analyze how we are doing and plan for the future (by time segments), refine our practice(s), implement research-based strategies, monitor or check our progress, and recalibrate as necessary.
    - CLARITY is at the forefront to ensure we continuously seek and understand why, what, and how, as we keep students learning a priority and at the heart of what we do everyday.
    - Universal Design for Learning (UDL): Addressing every child’s needs
    - Thinking Maps (TMs): Providing clarifying tools for everyone to become effective thinkers and problem solvers
  - Professional Development ensures faculty and staff members continue to refine and grow their craft.

Pohakea Elem, 2023-24, revised 02.27.2023
- School-wide foci: Ensuring everyone is equipped with strategies to deliver effective instruction for our students based on data and specific targets/school direction
- Personalized foci: Ensuring each member is able to develop areas requiring more refinement

**SY 2022-23 Measurable Outcomes**

**What are your Measurable Outcomes around School Design and Student Voice? What are you designing?**

**Tier 1 Instruction** - while monitoring NH and NHN, Growth MTSS - Social Emotional Learning Technology

**Measurable Outcome by the end of 22-23**

**Tier 1 Instruction**

A. 48% of tested students will be proficient in Math as measured by the SBA.
B. 57% of tested students will be proficient in ELA as measured by the SBA.
C. 47% of tested students will be proficient in Science as measured by HSA Science.
D. 100% of Pohakea’s Classroom Teachers will teach with clarity.
E. 100% of Pohakea’s Classroom Teachers will gain initial understanding of the shifts and standards of the Hawaii Core Standards in Social Studies.
F. 57% of Pohakea’s Teacher will be trained in integrated project based learning (K-6)
G. 50% of Pohakea’s teachers will be trained in the universal design for learning framework.
H. 100% of Pohakea’s faculty will receive training in addressing student behavior (i.e. calming down, problem-solving, etc.).
I. Increase student participation in out of school time opportunities.

**SY 2023-24 Measurable Outcomes**

**What are your Measurable Outcomes around School Design and Student Voice? What are you designing?**

**Measurable Outcome by the end of 23-24**

**Tier 1 Instruction**

A. Increase Math proficiency by 5% from the 2022-23 school year as measured by SBA.
B. Increase ELA proficiency by 5% from the 2022-23 school year as measured by SBA.
C. Increase Science proficiency by 5% from the 2022-2023 school year as measured by NGSS Science.
D. 100% of Pohakea’s Classroom Teachers will teach with clarity.
E. 100% of Pohakea’s K-6 classroom teachers will implement the new Hawaii Core Standards in Social Studies.
F. 100% of Pohakea’s K-6 classroom teachers will be trained in integrated project based learning (K-6)
G. 75% of Pohakea’s teachers will be trained in the universal design for learning framework.
H. 100% of Pohakea’s faculty will receive professional development in addressing student behavior (i.e. calming down, problem-solving, etc.)
I. Increase student participation in out of school time opportunities.

**Physical and Social-emotional Well-being**

**SY 2024-25 Measurable Outcomes**

**What are your Measurable Outcomes around School Design and Student Voice? What are you designing?**

**Measurable Outcome by the end of 24-25**

**Tier 1 Instruction**

A. Increase Math proficiency by 5% from the 2023-24 school year as measured by SBA.
B. Increase ELA proficiency by 5% from the 2023-24 school year as measured by SBA.
C. Increase Science proficiency by 5% from the 2023-2024 school year as measured by NGSS Science.
D. 100% of Pohakea’s Classroom Teachers will teach with clarity.
E. 100% of Pohakea’s K-6 classroom teachers will refine their implementation of the Hawaii Core Standards in Social Studies.
F. 100% of Pohakea’s K-6 classroom teachers will implement integrated project based learning (K-6)
G. 100% of Pohakea’s teachers will design learning experiences to remove barriers using the universal design for learning framework.
H. 100% of Pohakea’s faculty will receive professional development in addressing student behavior (i.e. calming down, problem-solving, etc.)
I. Increase student participation in out of school time opportunities.

**Physical and Social-emotional Well-being**

**Why are you implementing them?**

To create a culture of community that provides equitable access to support the whole child and partnerships with families and our community.

**Why are you implementing them?**

In School Year 2023-2024, after analyzing the data from the prior year, we will make refinements on how we are achieving our goals on effective Tier I instruction, implementation of effective instructional strategies in every classroom, social emotional learning, and increasing parent engagement. The purpose of this focus is to create a school that develops the Whole child to have the foundational skills to be successful in school, home, and community.

**Why are you implementing them?**

By the end of this AcPIn, teacher's will fully implement strategies that remove students' learning barriers and as a by-product of effective instruction led by an effective teacher in every classroom, students will grow academically, socially, and emotionally.

**How will you know that they are causing an improvement?**

We will know that our research-based practices (enabling activities) are causing an improvement by using the measurements listed in our student, staff, and parent engagement outcomes to monitor proficiency and growth over time. These measures will improve by 2.0-3.5% and with a stretch.

**How will you know that they are causing an improvement?**

Pohakea implements the Continuous School Improvement Process that solicits input from faculty, staff, and parents. We will continue to collect data on our Enabling activities and analyze to see if those activities help us achieve the goal. We will continuously revise and refine to meet our goals.

**How will you know that they are causing an improvement?**

Pohakea implements the Continuous School Improvement Process that solicits input from faculty, staff, and parents. We will continue to collect data on our Enabling activities and analyze to see if those activities help us achieve the goal. We will continuously revise and refine to meet our goals.
growth of 5% per year. We will also see a correlation between the professional development provided in student results and favorable teacher's perception of their knowledge of content and instructional practices.

---

**Pipeline of Emerging Ideas: Pilot Projects and Design Thinking**

When HIDOE references innovation and emerging ideas, the Department is responding to important mindsets that embrace new ideas, replace dated practices, and strive for better solutions. Therefore, the Learning Organization must be prepared to uphold innovative learning environments that elevate a school's collective work, expand capacity to improve, and continuously advance student learning.

The HIDOE 2030 Promise Plan will be drafted to help school communities open conversations about the Pipeline of Emerging Ideas.
