LEGISLATIVE REPORT

SUBJECT: Department of Education
Concurrent Resolution Requesting an Agreement for
Construction of a Pahoa School Gymnasium

REFERENCE: S.C.R. No. 181

ACTION REQUESTED: Enter into an Agreement with Mrs. Theodora Mallick to Construct a
Gymnasium for Pahoa High and Intermediate School and to
Purchase the Land and Building.

DOE REPORT: Mrs. Mallick is currently reviewing the standard developer-build
agreement. Full funding must be appropriated in order to finalize
such an agreement. However, we will continue to work with
Mrs. Mallick to address the proposal’s financial and procedural
issues.

CIP budget restrictions have limited the DOE’s ability to include
these types of projects in our CIP budget request. Priority projects
within the ceiling have been limited to health, safety, regulatory
compliance projects, and new classrooms to accommodate growth.
