

Ewa Beach Elementary

91-740 Papipi Road, Ewa Beach, Hawaii | Oahu | Campbell-Kapolei Complex Area

THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

55%

of students learning English are **on-track** to English language proficiency

How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

How many 3rd graders read on grade level?

64% of 3rd graders read **near, at, or above** grade level

How many students missed 15 or more days of school this year?

Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

Ewa Beach Elementary

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

Our Story

Ewa Beach Elementary is the home of the Honeybees and Kiawe trees. We are focused on being a community of successful lifelong learners. The Ewa Beach Way is focused on four areas, the first is Building Positive Relationships. According to Dr. John Hattie, Positive Relationships has a .75 effect size. These positive relationships help students to learn at a faster rate. We are focused on positive relationships with our students, faculty, families and community partners. The second area is Developing the Whole Child. We are using the General Learner Outcomes to give students the needed skills to be successful in the 21st Century work force. The third area is focused on our school's Academics. We are implementing the various curriculum centered around the Common Core State Standards as well as Project Lead the Way. As part of our Campbell Complex focus we are focused on Advancement Via Individual Determination. As part of the Ewa Beach Way we are also focused on Effective Teaching Practices. One area of focus has been on Learning Intentions and Success Criteria. These two areas are critical for instruction, learning and assessment. We are focused on student's assessing their own learning based on the criteria to enhance and deepen their learning and understanding.

We are Ewa Beach Elementary School, a community of inspired and passionate educators and learners.

The Strategic Plan

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WaqQrL>

About Our School

Principal | Sherry Kobayashi
Grades | K-6
808-689-1271
