4111 Hana Highway, Hana, Hawaii | Maui | Hana-Lahainaluna-Lanai-Molokai Complex Area

**THE STRIVE HI SCHOOL PERFORMANCE REPORT** is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

## How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

## How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

## How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

--  
of students learning English are **on-track** to English language proficiency

## How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

## How many students are prepared for transition?

## How many students missed 15 or more days of school this year?

## Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

How students feel about their safety --

# Hana High and Elementary

4111 Hana Highway, Hana, Hawaii | Maui | Hana-Lahainaluna-Lanai-Molokai Complex Area

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

## Our Story

The Hana Complex is a geographically isolated Pre K-12 school complex with 351 students located on the eastern side of Maui. The Hana Complex students live in a series of communities that stretch from Keanae to Kaupo in what is known as the Hana District. Separated by a two-hour drive from the more populated side of Maui, there are many limits to the social, educational, and economic opportunities available to the Hana Community.

The Hana Complex fully realizes the need for parental support and we involve parents in many different ways. Parents and community organizations are very involved with the school. Monthly School/Community Parent meetings provide opportunities for parent training, student recognition and input into the children's education. The greater Maui community and the school community are very generous in supporting our students with scholarships. Several local non-profit agencies and the University of Hawaii campuses provide services and extended learning opportunities for our students. The Hana Complex greatly values the partnerships with local non-profit agencies and institutions of higher education and will continue the partnerships in the future. These non-profit agencies provide services that range from health services to training programs that make real-life connections to ensure students are career and college ready.

## The Strategic Plan

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WaqQrL>

## About Our School

Principal | Richard Paul  
Grades | K-12
