Kapolei Middle

91-5335 Kapolei Parkway | Oahu | Campbell-Kapolei Complex Area

THE 2020-21 STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school’s performance on key indicators of student success. This report shows schools’ progress on federally-required indicators under the Every Student Succeeds Act; in addition to state-adopted measures focused on student equity, achievement and success. These results help inform action for teachers, principals, and other stakeholders.

Our Story

Kapolei Middle School strives to provide the academic and social skills necessary so that students will be successful in high school and competitive in the global community. It is the only middle school in the complex and utilizes a multi-track school calendar to accommodate the growing student population.

The school offers core academic courses as well as exploratory wheel and elective course offerings. Students are grouped into teams consisting of language arts, math, science, social studies, electives and exploratory wheel subject areas. Each homeroom teacher also serves as the advisory teacher, thus enabling the teacher to build relationships necessary for academic, emotional and social growth.

Kapolei Middle has an interactive website at www.kapoleimid.k12.hi.us that provides the most updated information about the school, staff, student activities.

Pandemic Related Considerations When Assessing Strive HI Results

Throughout this 2020-21 school year (SY), numerous pandemic-related challenges arose across Hawaiʻi’s public schools. Many challenges were common across schools, yet others were unique to a particular school or group of schools within a particular geographic area. The pandemic’s impact on instruction and learning had an effect on teachers and students, and those conditions should be considered when examining student achievement and school performance results.

This section provides important contextual information that should be considered when assessing 2021 Strive HI results, and when comparing 2021 results to prior year results. To the extent data were available, several key metrics are presented to provide context to learning, instruction, and test-taking during the past school year, including participation rates, students learning modalities, and access to adequate digital devices and internet connectivity.

How many students participated in testing?

These bar charts display participation rates across language arts, math, and science for All Students and high-needs subgroups. School rates are accompanied by complex area and statewide rates allowing for side-by-side comparisons. Consideration should be given to the following: (A) Participation rates should always be taken into consideration when reviewing proficiency results, and especially so, when students’ modes of learning, instruction, and test-taking options are disrupted or altered during the school year; (B) School participation rates should be compared across key subgroups as well as complex area and statewide rates; (C) Participation rates allow readers to judge the extent proficiency and other test derived results such as growth, achievement gap, and 3rd and 8th grade literacy rates, are representative of all students eligible to test; and (D) When participation rates drop below 95%, one should ask, “To what extent are these results reflective of all students eligible to test?” “Are certain student subgroups over- or under-represented?” “Do those differences skew achievement results?” The following link provides guidelines and considerations when examining achievement results derived from low-participation rates, as well as other important pandemic related considerations: Appropriate Use of SY 2020-21 Hawaiʻi Statewide Assessment Program (HSAP) Results.

Language Arts Participation - By School, Complex Area, and State

- All Students: 82%, 77%, 81%
- Special Education: 77%, 80%, 82%
- Disadvantaged: 77%, 74%, 78%
- English Learners (EL): 82%, 74%, 77%
- High Needs: 78%, 74%, 78%
- Non-High Needs: 87%, 80%, 85%

Math Participation - By School, Complex Area, and State

- All Students: 82%, 78%, 81%
- Special Education: 78%, 81%, 82%
- Disadvantaged: 78%, 74%, 77%
- English Learners (EL): 83%, 74%, 80%
- High Needs: 79%, 75%, 78%
- Non-High Needs: 87%, 81%, 85%

Science Participation - By School, Complex Area, and State

- All Students: 80%, 77%, 81%
- Special Education: 75%, 83%, 83%
- Disadvantaged: 75%, 72%, 75%
- English Learners (EL): 81%, 67%, 71%
- High Needs: 76%, 73%, 75%
- Non-High Needs: 85%, 81%, 87%

Language Arts Participation - Three-Year Comparison

- All Students: 98%, 98%, 81%
- Special Education: 96%, 93%, 82%
- Disadvantaged: 97%, 96%, 78%
- English Learners (EL): 96%, 100%, 77%
- High Needs: 97%, 96%, 78%
- Non-High Needs: 99%, 99%, 85%

Math Participation - Three-Year Comparison

- All Students: 99%, 98%, 81%
- Special Education: 96%, 93%, 82%
- Disadvantaged: 98%, 97%, 77%
- English Learners (EL): 96%, 97%, 80%
- High Needs: 98%, 97%, 78%
- Non-High Needs: 99%, 99%, 85%

Science Participation - Three-Year Comparison

- All Students: 98%, 97%, 81%
- Special Education: 96%, 96%, 83%
- Disadvantaged: 95%, 95%, 75%
- English Learners (EL): 89%, 100%, 71%
- High Needs: 95%, 95%, 75%
- Non-High Needs: 100%, 100%, 87%
In what learning environment did students receive instruction?
This bar chart shows the percent of students receiving instruction completely in-person or in a blended or completely virtual setting. Consideration should be given to the following: (A) Students’ learning modality varied across schools; (B) Some students seemed to achieve better in-person, while blended or completely virtual settings may have been more conducive to learning for other students; (C) A student’s learning modality can serve as a useful comparison when examining individual student achievement based on their learning modality, however, caution should be given when drawing such conclusions; and (D) Certain students may be more likely to attend in-person compared to other types of students, that is, students with disabilities. Schools may look into these students to determine if that is the case before drawing conclusions about performance based on students’ learning modality.

### Notes:
1. 2020 chronic absenteeism is based on absences only through the end of the third quarter (3/13/20). As such, the rate is not directly comparable with years prior to or following 2020, which were based on absences through May 1 of each school year.

2020-21 Strive HI School Performance Results

**IMPORTANT:** Due to COVID-19, in SY 2020, no statewide tests were administered. In SY 2021, Hawai‘i public schools administered a shortened version of the statewide assessment, a skip-year growth methodology was used, and participation rate penalties were waived as approved by the U.S. Department of Education.
