**THE STRIVE HI SCHOOL PERFORMANCE REPORT** is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

## How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

## How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

## How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

# 41%

of students learning English are **on-track** to English language proficiency

## How are students' academic progress measured?

The Smarter Balanced test shows the relative progress of the average student on state assessments using a Median Growth Percentile (MGP). HSA-Alt & KĀ'EO tests show the percent of students making academic growth each year.

## How many 3rd graders read on grade level?

**73%** of 3rd graders read **near, at, or above** grade level

## How many students missed 15 or more days of school this year?

## How do students feel about their school?

Measures percent of students reporting positive school climate as measured by the Tripod Student Perception Survey.

**84%** of students **feel positively** about their school

## Our Story

At Kipapa, we believe in educating the “whole child” by supporting our students to learn and grow academically, physically, socially and emotionally. We believe in helping students discover and develop their strengths and passions. Our goal is to develop students with strong character and high academic achievement.

Our teachers have consistent Data Team/Articulation time to meet and analyze data to inform their instruction, discuss instructional strategies, create next steps and monitor progress of students throughout the school year. We provide a variety of supports for students struggling with academics, transitions, social and emotional challenges, etc.

We have a school culture that collaboratively engages our students, faculty, staff, families and community partners as one big Family (‘Ohana) to support our students’ learning and growth in all areas! We engage our students in meaningful learning, field trips, performing arts, physical education, library, technology and STEM instruction integrated into the students’ curriculum and experiences.

We will continue to strive to improve our students’ academic achievement while also emphasizing the importance of developing good character. Kipapa is a dynamic community where we dream, strive and achieve together!

How do you measure how well a school is doing? In our estimation, it’s more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system.
