5000 Kula Highway, Kula, Hawaii | Maui | Baldwin-Kekaulike-Maui Complex Area

**THE STRIVE HI SCHOOL PERFORMANCE REPORT** is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

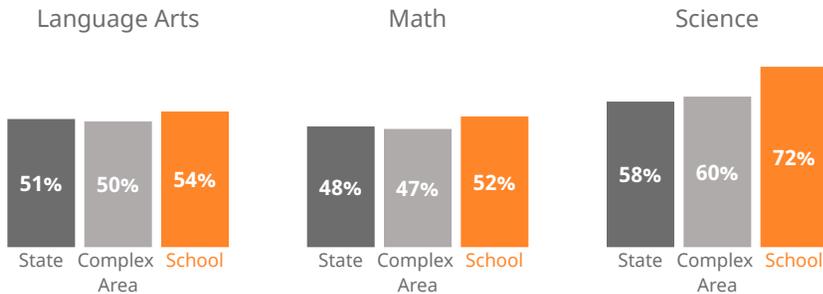

## How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

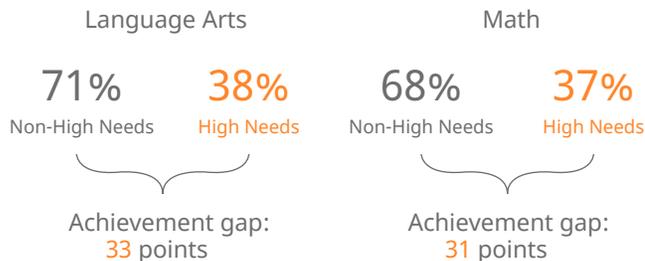

## How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

## How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

of students learning English are **on-track** to English language proficiency

## How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

## How many 3rd graders read on grade level?

**71%** of 3rd graders read **near, at, or above** grade level

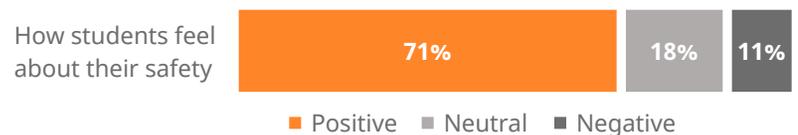

## How many students missed 15 or more days of school this year?

## Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.

## Our Story

Kula Elementary School believes in the "Kula Way" – working together to develop a culture of mutual respect and shared responsibility. The school has developed its Positive Behavior Intervention System (PBIS) to focus on building relationships that positively impact student achievement. The school offers monthly family engagement activities and partners with community resources to provide students with a variety of service learning and community outreach programs throughout the year.

A variety of real-world experiences are provided for students to expand and apply knowledge both in and outside the classroom including Arts Integration, Hawaiian Studies, PE, Gardening, Agriculture, and STRETCH classes (for students performing above grade level). In addition, students have opportunities to participate in afterschool programs such as Cross Country running, Basketball, Math Matters, Robotics, Geography and Spelling Bees, and the Science Olympiad. Students are provided with 1:1 technology devices and instruction in preparation for college and career readiness.

Pono Academy Kula is a district funded program located on the campus that focuses on helping students to become socially and emotionally functioning and independent in a school setting. In SY 2018-2019, Kula will participate in an Executive Office of Early Learning (EOEL) Pre-K Program.

## The Strategic Plan

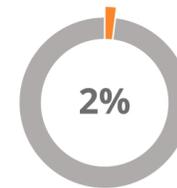

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WaqQrL>

## About Our School

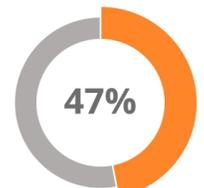

Principal | Hans Bachaus  
Grades | K-5  
808-876-7610
