THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

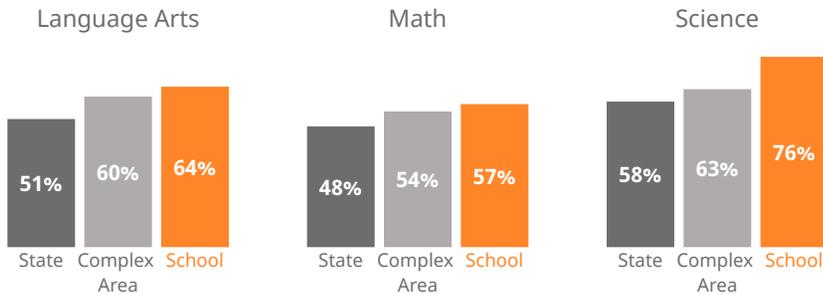

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

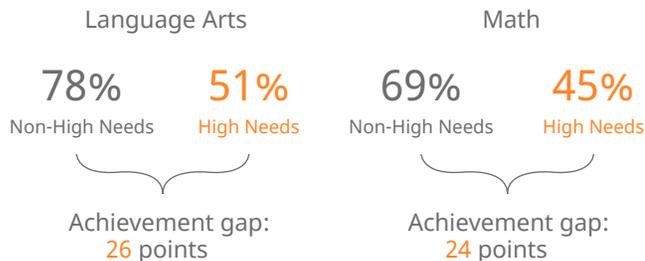

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

52%

of students learning English are **on-track** to English language proficiency

How do students' progress compare to their peers'?

The Median Growth Percentile (MGP) shows the relative progress of the average student on state assessments. For example, an MGP of 60 means the average student performance was better than 60% of students that scored similarly on previous state assessments.

How many 3rd graders read on grade level?

72% of 3rd graders read **near, at, or above** grade level

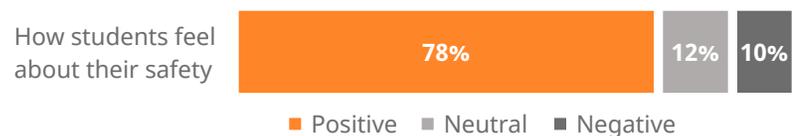

How many students missed 15 or more days of school this year?

Do students feel safe at this school?

Measures student responses on the Safety dimension of the School Quality Survey.

Our Story

At Makalapa, we are a dedicated staff who inspire students to be college, career and citizenship ready.

Makalapa and the SCC board members assist in the decision-making at the school. Our Academic and Financial Plan focus on goals in the areas of reading, writing and math. Teachers strive to integrate common assessments, writing activities in content areas and the GLOs into our curriculum.

Makalapa implements the state curriculum for ELA. To strengthen our ELA curriculum, we have added program supports with Success for All, Multi-sensory Learning/Orton-Gillingham and CAFÉ/Daily 5. Achieve 3000 is utilized to address expository text. We implement the CCSS standards in math with resources from Go Math, Stepping Stones, Singapore Math, and Model Drawing. To diversify the ways that teachers serve the needs of our students, Makalapa utilizes several computer-assisted programs: Reflex, Prodigy, SeeSaw, Adobe Spark, Wowzers, and Keyboarding without Tears.

Makalapa offers a wide variety of programs to our students. Robotics, Student Council, JPO and Intra-murals are offered to our students in grades 4-6.

The Strategic Plan

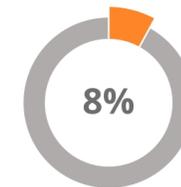

The Strategic Plan describes shared objectives for equity and excellence for every child. To measure progress on the Strategic Plan, we report on key statewide success indicators. These indicators represent the health of public education, focusing on those which have greatest impact on student success, as well as state and federal requirements. They do not comprehensively represent the diverse measures of success valued by our nearly 300 schools. Schools address their unique approach to indicators through their Academic and Financial Plans and charter school contracts. Learn more at <http://bit.ly/1WaqQrL>

About Our School

Principal | Denise Arai
Grades | K-6

www.makalapael.org

641

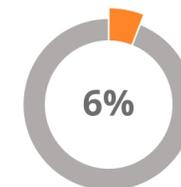

students enrolled

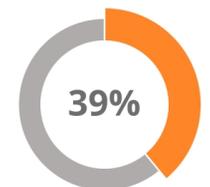

of students are English language learners

of students are eligible for Free or Reduced Lunch

of students receive Special Education services

of students receiving Special Education services are in general education classes most of the day

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system. Our Strategic Plan provides a common foundation of expectations and supports for public education, centering on closing the achievement gap to ensure equity and excellence in our schools.
