

Maui High

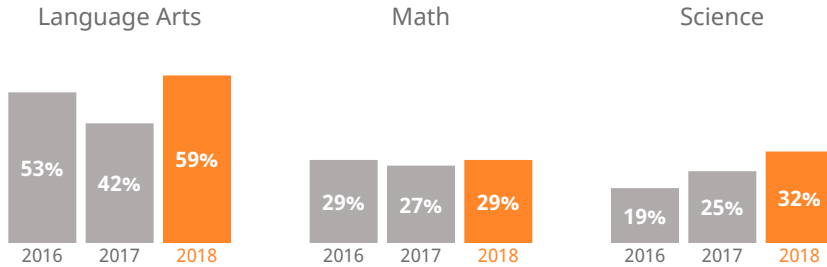

660 South Lono Avenue, Kahului, Hawaii | Maui | Baldwin-Kekaulike-Maui Complex Area

THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

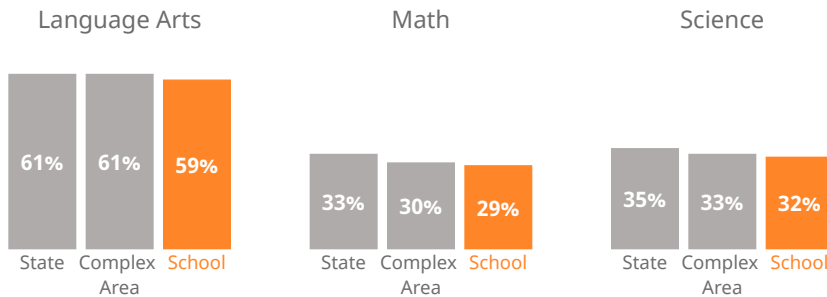

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

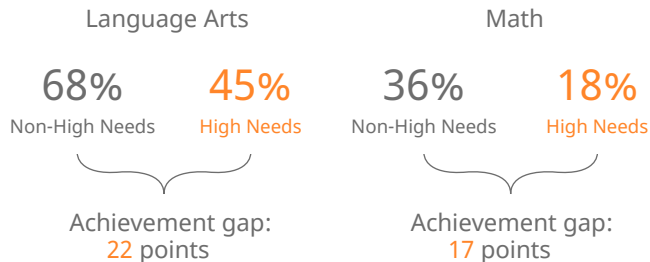

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

8%

of students learning English are **on-track** to English language proficiency

How many students are prepared for transition?

81% of 9th graders are **promoted** to 10th grade on-time

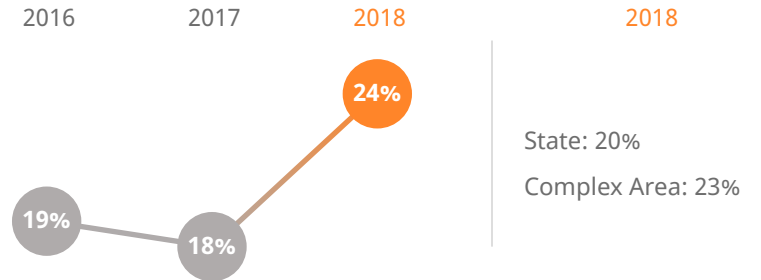

81% of students **graduated** on-time

64% of students completed a **Career & Technical Education** program by 12th grade

60% of students enrolled in **postsecondary institutions** the fall after graduation

How many students missed 15 or more days of school this year?

How do students feel about their school?

Measures percent of students reporting positive school climate as measured by the Tripod Student Perception Survey.

73% of students **feel positively** about their school

Maui High

660 South Lono Avenue, Kahului, Hawaii | Maui | Baldwin-Kekaulike-Maui Complex Area

Our Story

Maui High has embraced the concept of smaller learning communities as a model to address the varied needs of a diverse student body.

Some of the strategies and structures implemented include teams in grades 9 and 10, open enrollment for Advanced Placement, thematic academies, Advancement Via Individual Determination and schoolwide differentiated instruction. The school has also created content mastery labs and a Newcomers Center to assist students and families who need additional support.

Maui High maintains a diverse curriculum focused on preparing students for success in college or careers. In addition to the courses required for graduation, the school offers a wide array of classes serving varied career, technical and artistic interests, as well as support programs to ensure student success and Advanced Placement courses in 15 subjects.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system.
