How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

Moanalua High
2825 Ala Ilima Street | Oahu | Aiea-Moanalua-Radford Complex Area

THE 2021-22 STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on federally-required indicators under the Every Student Succeeds Act; in addition to state-adopted measures focused on student equity, achievement and success. These results help inform action for teachers, principals, and other stakeholders.

Our Story

Moanalua High School was established in 1972 and graduated its first class in 1975. One of six public high schools, in the HIDOE Central District, the Moanalua campus is located on the outskirts of metropolitan Honolulu on the rim of Salt Lake crater. With an enrollment of approximately 2,000 students, the school serves a diverse population representing all socio-economic backgrounds and ethnic groups including Filipino, Japanese, Caucasian, Chinese, Korean, African-American, Hawaiian and part Hawaiian, Hispanic, Samoan and other Pacific Islanders. Approximately 24 percent of the student body is represented by dependents of military personnel.

The school offers a rigorous, comprehensive curriculum that includes college preparatory courses, Advanced Placement (AP) courses, Career-Technical Education (CTE) pathways, English Language Learner (ELL) pathways, and inclusion programs for special education students. A caring faculty of dedicated professional educators strives daily to provide quality instruction designed to prepare students to responsibly create their future by striving to be college-and-career ready. Moanalua High School is also the site for two Learning Centers—the Center for Media Communications & Technology (MeneMAC) and the World Language Learning Center. Other programs available to students include the Air Force JROTC program and the school's award-winning music program (Band, Orchestra, and Choral ensembles), and a diverse array of student-interest clubs as well as opportunities to participate on competitive interscholastic athletic teams.

Established in June 2005, Moanalua High School’s School Community Council (SCC) functions as part of the school’s governance system to ensure collaboration amongst all school community stakeholders. In addition to governance, several active and dedicated parent organizations support the school’s broad range of school and student activities. These parent groups include the PTSA, Music Boosters, and Athletic Boosters.

In 2018, the Western Association of Schools and Colleges (WASC) accredited Moanalua High School for a full six-year term. As part of the WASC accreditation process, the school’s mission and vision was reviewed and revised. Moanalua High school will next be visited by a WASC team in the spring of 2024.

Vision
"...a community where everyone encourages, creates, and learns."

Mission
"Prepare students to responsibly create their future."

Pandemic Related Considerations When Assessing Strive HI Results

Throughout this 2021-22 school year (SY), numerous pandemic-related challenges arose across Hawaiʻi’s public schools. Many challenges were common across schools, yet others were unique to a particular school or group of schools within a particular geographic area. The pandemic’s impact on instruction and learning had an effect on teachers and students, and those conditions should be considered when examining student achievement and school performance results.

Chronic Absenteeism and the Pandemic

(For 2022 results, see Page 4)

In school year 2021-22, there was a substantial, statewide increase in the chronic absenteeism rate. These increases were largely pandemic related and schools had very little control over such absences. While schools continued to implement follow-up procedures for absent students, the impact was minimal given the large number of students kept home due to several pandemic related factors. A number of factors described below were also seen nationally and are not unique to Hawaii only.

It is important to reiterate that the purpose of the Strive HI Chronic Absenteeism Measure is to identify schools where a substantial proportion of students did not receive the full year of instructional time. The measure is not intended to place fault with schools and is based on all student absences, both unexcused and excused absences. The following is a summary of key pandemic related factors that contributed to the large increase in chronic absenteeism rates across schools.

Statewide factors

The single most influential factor attributable to 2021-22 absences was due to COVID infections and quarantines due to potential exposure. Increases in absences and peaks in infection rates were consistently mirrored during September – November 2021 (Delta variant) and January – May 2022 (Omicron variant). Key factors observed included the following:

- Elementary students were disproportionately negatively impacted, accounting for over half of 2021-22 chronically absent students.
- Vaccinations for elementary age students were not readily available through the first half of the school year.
- Vaccine apprehension resulting in parents/guardians more likely to keep their child home knowing he/she is unvaccinated.
- Changes with COVID exposure/infection guidance caused confusion around when students should attend or not attend school.
- Exposure or infection of a single student impacting an entire household including multiple school aged siblings.
- Convenient and abundant access to home tests increased identification of positive results (including non-symptomatic cases) resulting in isolation and quarantines within the household.

Localized factors

The following are localized factors that were reported to increase absences. One was clustered in an individual complex area and the other disproportionately impacted a specific island:

- U.S. Navy emergency fuel storage leak coinciding with increases in absenteeism across one Central Oahu complex area.
- Bus driver shortages were already an issue pre-pandemic and exacerbated further by the pandemic. Approximately 15% of schools statewide were impacted to some degree. Big Island schools were most impacted with around 50% of schools across the island.
How many students participated in testing?

These bar charts display participation rates across language arts, math, and science for All Students and high-needs subgroups. School rates are accompanied by complex area and statewide rates allowing for side-by-side comparisons. Consideration should be given to the following: (A) Participation rates should always be taken into consideration when reviewing proficiency results, and especially so, when students’ modes of learning, instruction, and test-taking options are disrupted or altered during the school year; (B) School participation rates should be compared across key subgroups as well as complex area and statewide rates; (C) Participation rates allow readers to judge the extent proficiency and other test derived results such as growth, achievement gap, and 3rd and 8th grade literacy rates, are representative of all students eligible to test; and (D) When participation rates drop below 95%, one should ask, “To what extent are these results reflective of all students eligible to test?” “Are certain student subgroups over- or under-represented?” “Do those differences skew achievement results?” The following link provides guidelines and considerations when examining achievement results derived from low-participation rates, as well as other important pandemic related considerations: Appropriate Use of SY 2020-21 Hawai‘i Statewide Assessment Program (HSAP) Results. https://drive.google.com/file/d/1mve1u1IX6MQW3idks0mEd7lA7YB4g2/view?usp=sharing

1 2020 chronic absenteeism is based on absences only through the end of the third quarter (3/13/20). As such, the rate is not directly comparable with years prior to or following 2020, which were based on absences through May 1 of each school year.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The 2021-22 STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on federally-required indicators under the Every Student Succeeds Act; in addition to state-adopted measures focused on student equity, achievement and success. These results help inform action for teachers, principals, and other stakeholders.

Our Story

Moanalua High School was established in 1972 and graduated its first class in 1975. One of six public high schools, in the HIDOE Central District, the Moanalua campus is located on the outskirts of metropolitan Honolulu on the rim of Salt Lake crater. With an enrollment of approximately 2,000 students, the school serves a diverse population representing all socio-economic backgrounds and ethnic groups including Filipino, Japanese, Caucasian, Chinese, Korean, African-American, Hawaiian and part Hawaiian, Hispanic, Samoan and other Pacific Islanders. Approximately 24 percent of the student body is represented by dependents of military personnel.

The school offers a rigorous, comprehensive curriculum that includes college preparatory courses, Advanced Placement (AP) courses, Career-Technical Education (CTE) pathways, English Language Learner (ELL) pathways, and inclusion programs for special education students. A caring faculty of dedicated professional educators strives daily to provide quality instruction designed to prepare students to responsibly create their future by striving to be college-and-career ready. Moanalua High School is also the site for two Learning Centers—the Center for Media Communications & Technology (MeneMAC) and the World Language Learning Center. Other programs available to students include the Air Force JROTC program and the school's award-winning music program (Band, Orchestra, and Choral ensembles), and a diverse array of student-interest clubs as well as opportunities to participate on competitive interscholastic athletic teams.

Established in June 2005, Moanalua High School's School Community Council (SCC) functions as part of the school's governance system to ensure collaboration amongst all school community stakeholders. In addition to governance, several active and dedicated parent organizations support the school's broad range of school and student activities. These parent groups include the PTSA, Music Boosters, and Athletic Boosters.

In 2018, the Western Association of Schools and Colleges (WASC) accredited Moanalua High School for a full six-year term. As part of the WASC accreditation process, the school's mission and vision was reviewed and revised. Moanalua High school will next be visited by a WASC team in the spring of 2024.

Vision

"...a community where everyone encourages, creates, and learns."

Mission

"Prepare students to responsibly create their future."

Achievement gap:
- 2020 chronic absenteeism is based on absences only through the end of the third quarter (3/13/20). As such, the rate is not directly comparable with years prior to or following 2020, which were based on absences through May 1 of each school year.
