

Sunset Beach Elementary

59-360 Kamehameha Highway, Haleiwa, Hawaii | Oahu | Castle-Kahuku Complex Area

THE STRIVE HI SCHOOL PERFORMANCE REPORT is an annual snapshot of a school's performance on key indicators of student success. This report shows schools' progress on the Department and Board of Education's Strategic Plan and federally-required indicators under the Every Student Succeeds Act. These results help inform action for teachers, principals, community members, and other stakeholders.

How are students performing in each subject?

Measures the percent of students meeting the standard/who are proficient on state assessments.

How are students performing compared to others?

Compares the percent of students meeting the standard/who are proficient on state assessments.

How are student subgroups performing?

High Needs: English learners, economically disadvantaged, and students receiving Special Education services. Non-High Needs: All other students.

How are students' academic progress measured?

The Smarter Balanced test shows the relative progress of the average student on state assessments using a Median Growth Percentile (MGP). HSA-Alt & KĀ'EO tests show the percent of students making academic growth each year.

How many 3rd graders read on grade level?

81% of 3rd graders read **near, at, or above** grade level

How many students missed 15 or more days of school this year?

How do students feel about their school?

Measures percent of students reporting positive school climate as measured by the Tripod Student Perception Survey.

72% of students **feel positively** about their school

Sunset Beach Elementary

59-360 Kamehameha Highway, Haleiwa, Hawaii | Oahu | Castle-Kahuku Complex Area

Our Story

Sunset Beach Elementary School provides a student-centered learning environment designed to prepare students with the basic foundation for learning the core subjects, to guide students as they learn about their environment and society, and to foster a student's interest in duty and responsibility within their community through various activities and experiences.

Our standards-based academic program is enriched through differentiated classroom instruction and the infusion of art and technology into instructional practices and student work. Students have web based extended learning programs to access at school and home. The enrichment program for selected students in grades 4-6 focuses on math and science.

An active Parent Teacher Community Association, School Community Council, and excellent community partnerships provide volunteer assistance and financial support to the school.

How do you measure how well a school is doing? In our estimation, it's more than scores on high-stakes tests. Schools should show that they are supporting children along the educational pipeline toward college, career, and community readiness. Are our students attending school? Are they graduating? Are they going to college? And how successfully are schools reducing the achievement gap between high-needs and non-high needs students?

The Strive HI Performance System was designed to account for these factors in student success. Initially created in 2013 by a U.S. Department of Education waiver from certain aspects of the former No Child Left Behind Act, Strive HI has been refocused by the goals and priorities of the 2017-2020 Department of Education and Board of Education Strategic Plan, the governing document for the public education system.
